

REMARKS

Claim Rejections

Claims 1-2 and 5 are rejected under 35 U.S.C. § 102(b) as being anticipated by Devlin et al. (U.S. 5,605,466). Claims 1, 3 and 6 are rejected under 35 U.S.C. § 102(b) as being anticipated by Brownlie et al. (U.S. 4,984,982). Claim 4 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Claims 7-10 are allowed.

Claim Amendments

By this Amendment, Applicant has canceled claims 1-3 and 5-6, and amended claim 4 of this application. It is believed that the amended claims specifically set forth each element of Applicant's invention in full compliance with 35 U.S.C. § 112.

Claims 7-10 are allowed.

The Examiner has indicated that claim 4 would be allowed if rewritten independent form. Applicant's amended claim 4 comprises a combination of original claims 1 and 4, thus redrafting claim 4 in independent form. In the absence of any art cited against Applicant's original claim 4, it is not believed that any detailed discussion of the cited prior art references is necessary. Suffice to say that all of the claims remaining in this patent application contain subject matter against which no prior art citations have been made.

Summary

In view of the foregoing amendments and remarks, Applicant submits that this application is now in condition for allowance and such action is respectfully requested. Should any points remain in issue, which the Examiner feels could best be resolved by either a personal or a telephone interview, it is urged that Applicant's local attorney be contacted at the exchange listed below.

Respectfully submitted,

Date: January 18, 2006
